

Professional Summary

Fresh Graduate in Computer Science with over **1 years of professional experience** as a Frontend Developer. Proficient in building high-performance web applications using **React.js**, **Vue.js**, and **Next.js**. Skilled in developing real-time systems and complex business logic, with a strong focus on clean code and intuitive user experiences

Work Experience

Tamadun Teknologi Internasional | Yogyakarta, Indonesia

IT consulting and software development company delivering digital solutions for business and medical intelligence

Frontend Developer

Dec 2022 – Dec 2023

- **Developed and maintained** responsive web applications using **Vue.js** and **Vuetify**, improving user experience and interface consistency
- **Built dynamic client configuration** systems for **multi-client usage**, improving flexibility and customization
- **Implemented real-time notification systems** using service workers to enhance user engagement and responsiveness
- **Identified and resolved** performance issues while collaborating with cross-functional teams to deliver scalable and maintainable solutions

PT Widya Inovasi Indonesia | Yogyakarta, Indonesia

AI and IT consulting company delivering automation and computer vision solutions for business efficiency

Frontend Developer Intern

Feb 2022 – Aug 2022

- **Built** a full-featured **API ordering platform for face detection services** from scratch using **React.js** and **Tailwind CSS**, delivering a responsive and user-friendly interface
- **Integrated RESTful APIs** for efficient data flow and system reliability
- **Collaborated** with cross-functional teams to deliver a production-ready application

Education

- **B.Sc. in Computer Science (Online Learning)**, BINUS University, Indonesia **May 2023 - May 2026**
- **Diploma in Computer Technology**, Telkom University, Indonesia **Aug 2019 - Dec 2022**
- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Software Engineering, Web Development

Technical Skills

- **Languages & Frameworks:** JavaScript, **TypeScript**, **React.js**, **Next.js**, **Vue.js**, Vuetify, Node.js, Express.js
- **Frontend Tools & Styling:** HTML5, CSS3, **SASS**, **Tailwind CSS**, **ShadCN UI**, **Aceternity UI**, Framer Motion
- **Backend & Integration:** **RESTful APIs**, **Supabase**, **Prisma**, **PostgreSQL**, Service Workers
- **Development Tools:** Git, GitHub, VS Code, Chrome DevTools, Postman, Vercel, EdgeOne

Highlighted Projects

- **Queue Orbit | Next.js, Supabase, Tailwind CSS** **2026**
 - Built a real-time queue management system using **Supabase Realtime** to provide instant updates for called names.
 - Created a streamlined dashboard to manage active queues and a public-facing display
- **Money Orbit | Next.js, Supabase, Tailwind CSS, ShadCN UI** **2026**
 - Built a personal finance tracker with **secure authentication** and real-time data visualization for income and expense analytics.
 - Implemented data filtering and reporting features to help users track spending habits over time

- **Waroeng US (Web POS System) | Next.js, Prisma, PostgreSQL, ShadCN UI** **2025**
 - Developed a comprehensive **Point of Sale (POS)** system featuring multi-store management and a robust multi-role access control system (Super Admin, Admin, Cashier)
 - Built the backend architecture using **Prisma** and **PostgreSQL** to handle complex inventory and transaction data across different store locations
- **Personal Portfolio | TypeScript, Next.js, Aceternity UI, Framer Motion** **2025**
 - Designed and deployed a high-performance portfolio featuring modern UI components from **Aceternity UI** and **ShadCN UI**
 - Utilized **TypeScript** for type-safe development and **Framer Motion** for polished, interactive user experiences
